S-911 Bracelet Locator HCTM
— HealthCare —

Locating and Protection Device for Healthcare

S-911 Bracelet Locator HC offers a high sensitivity GPS location tracker with an emergency cell phone that is worn on your wrist. The device features a SOS Emergency button, motion sensor for person down alert, geo-fence protection, quick dial for immediate assistance. It also features a tamper detection, *water resistant enclosure and advance power saving function. The Bracelet Locator has been designed specifically for the healthcare market. In real time, the device can pinpoint the exact location of the person within 10 ft. It's ideal for locating patients (Alzheimer's), physicians, nurses and for elderly care. It will also alert you on emergency situations when the person is unable to communicate. The unit is stylish for everyday use, and yet rugged for patient everyday use. The suggested applications are: Health Protection, Elderly Care and Alzheimer Care.
* (IP54)

Identify Yourself with the S-911 Bracelet Locator HC

In an emergency, when you might not be able to speak for yourself, medical information speaks for you. The S-911 Bracelet Locator HC has a built in Medical Information Storage (MIS) to collect your medical history. The S-911 Bracelet Locator HC can store your medical information, allergy information and medical alert information. You can retrieve MIS by pressing a single button and view the information on line.
